re: Addendum to the Garcia Properties Subsurface Investigation Report  
date: August 8, 2006

---

Dear Ms. Lee,

As per our conversation today, SECOR is submitting this Addendum to the Garcia Properties Subsurface Investigation Report, dated August 2, 2006. This Addendum reflects the correct plotting of groundwater elevation data, groundwater contours, groundwater flow direction, and groundwater gradient on the attached Site Plan (figure 2 of the Report).

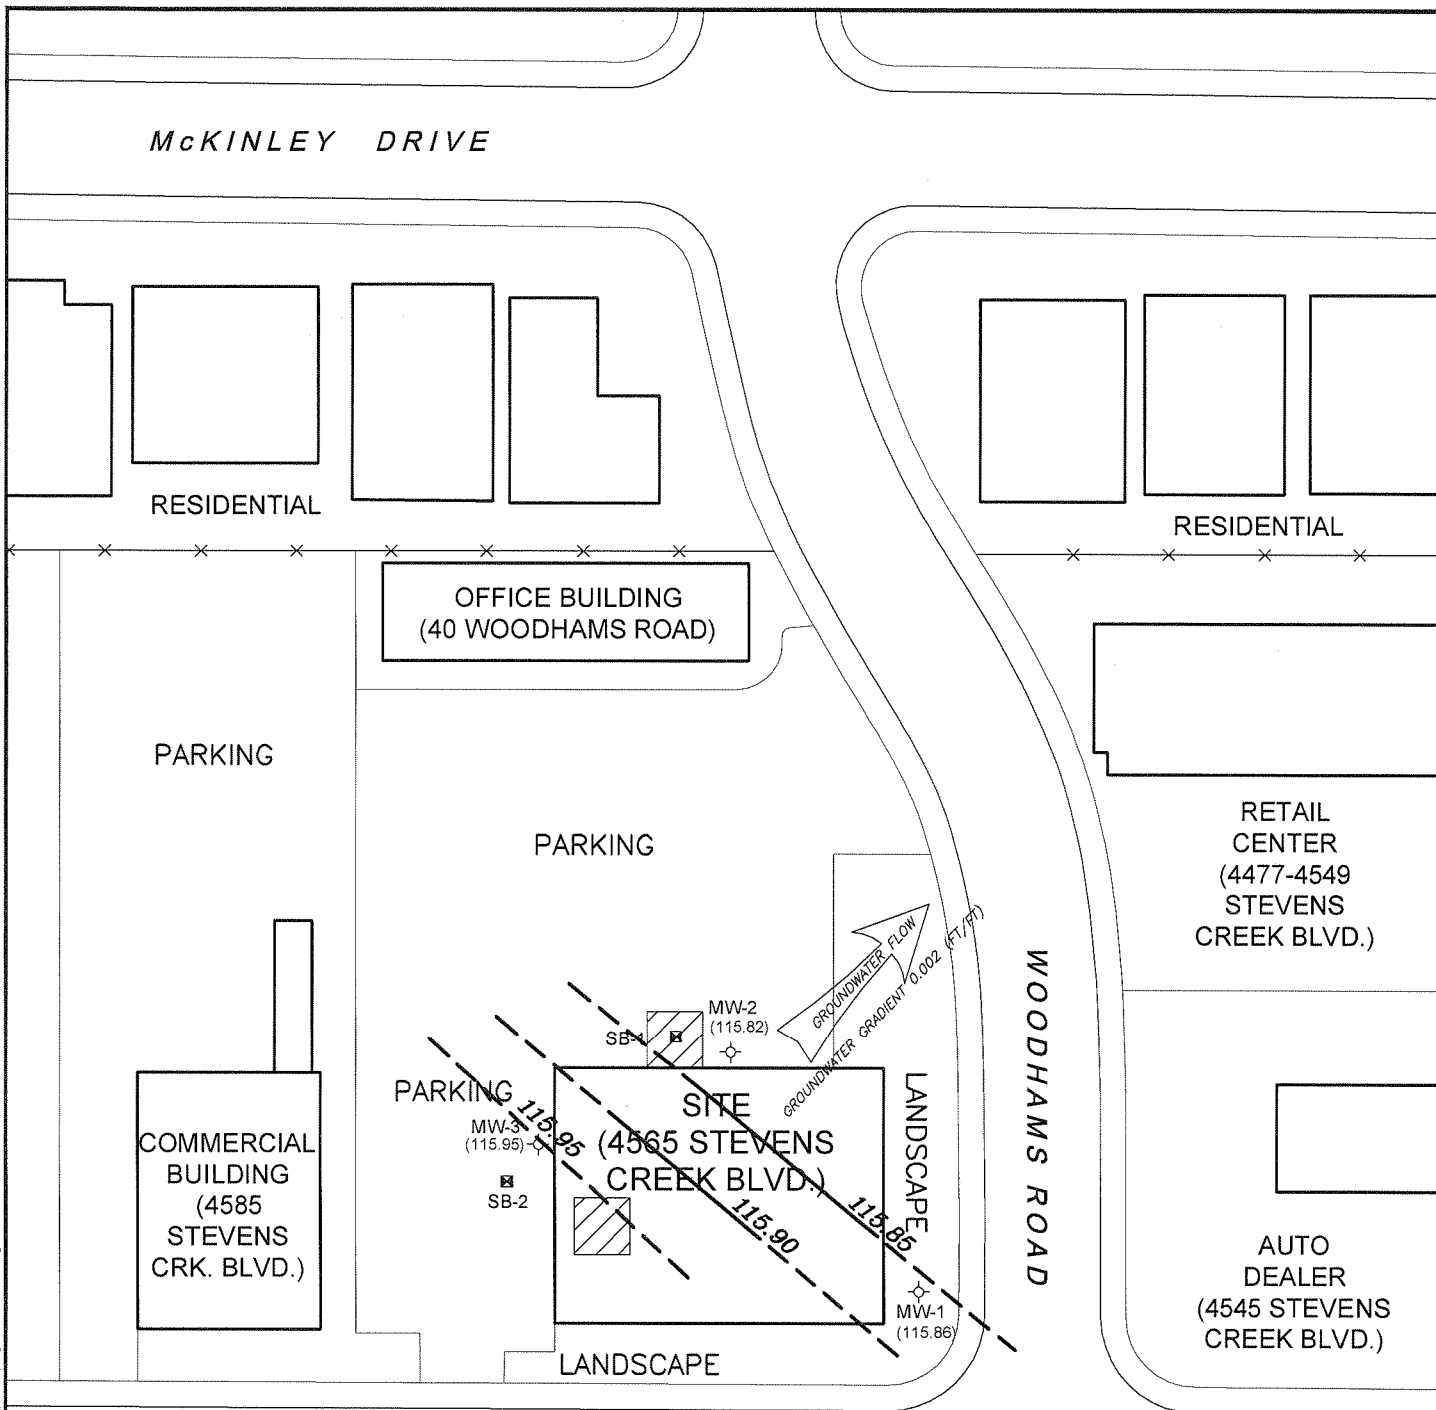

SECOR is in the process of uploading the original report and this Addendum to Geotracker.

SECOR appreciates your timely review of the Report and this Addendum. SECOR and our client look forward to your issuance of a Closure Letter for the property.

Don't hesitate to contact me if you have any further questions.

Attachment  
Revised Site Plan (Figure 2)
